

SoundPro 430 UC – experience VoIP in true wideband audio quality

The headset is a key part of the overall UC system for softphone users. It allows a trouble-free and intuitive VoIP application in full wideband audio quality.

Comfortable wearing style

The large, soft synthetic leather ear pads remain comfortable even after hours on the phone, listening to music or chatting. With the SoundPro430 UC, you profit from a comfortable and efficient operation from the very first day.

Simply plug & play

The freeVoice SoundPro430 UC is a plug & play headset for Skype for business (Microsoft Lync). Use the call-control keys integrated in the cable to accept and terminate calls directly from the headset, adjust the volume and activate the mute function. No driver or additional software is needed. Simply plug the USB connector of your headset into the USB port of your PC and away you go!
