interface	Type-C
input Voltage	9V2A
Power to mobile	15W/10W/7.5W/5W
Power to Watch	2.5W
Power to earphone	3W
Adapter	QC3.0
Compatibility	All Qi-compliant phones, Apple iWatch, Apple TWS
Packing List	Wireless charger*1、USB Cable*1、manual*1、QC3.0 Adapter (optional)

三、Operation Instruction:

- ① When charging the device, please plug it into the USB port of the QC3.0 adapter through the provided USB cable.
- ② Mini mobile phone is recommended to be charged horizontally. Due to the inconsistent length of the mobile phone and the fixed position of the charging coil, the vertical charging efficiency of the mini mobile phone will be low.
- ③ When charging iPhone, iWatch or TWS devices, place the iPhone or iWatch or TWS flat on the charging area, and start charging the device after 0.5 seconds. When charging is complete, the device can be removed directly. During the charging process, if the device needs to terminate the charging, it can be removed directly.

四、Safety Tips and Precautions:

- ① Adapter power supply and socket installation must comply with safety regulations.
- ② Adapter requirements: It must meet the QC3.0 standard, and do not use non-standard power supplies.
- ③ Do not disassemble or beat the product by yourself to avoid damage to the product.
- ④ Do not expose this product to rain or moisture or high temperature.
- ⑤ Please use this product in the temperature range of -10℃-35℃.
- ⑥ Please place the product away from flammable and explosive liquids, gases or explosives.
- ⑦ For safety reasons, this product should be placed away from children.
- ⑧ Do not place magnetic cards and metal objects in the charging area.
